

What piqued your interest to **i2i CORE RAMP UP TRAINEESHIP PROGRAM**

“ Due to the hiatus in my studies following graduation from Poly due to national service, I felt that participating in this programme would enable me to develop new skills in software programming and receive real-world work experience through work attachment, which would benefit me in my career. ”

-GABRIEL TAN

In March 2021, our XPLORE team launched our 1st i2i Internship to Innovation – Core Ramp Up Traineeship Program. i2i is a program designed to add value to internship/ traineeship/ apprenticeship with an aim of nurturing and connecting budding Tech Talents to industry players. Manoeuvring in a fast-paced technology space, we take pride in presenting ample opportunities for our younger Tech Talents to get meaningful exposure/experience in this proven program.

i2i Core Ramp Up Trainee

3 important skills that you have learnt in this programme?

GABRIEL TAN

01 Communication Skills

02 Problem Solving

03 Time Management

How do you think this program will benefit you in your future career progression and opportunities?

GABRIEL TAN

By gaining new programming skills and having an opportunity for real work attachment, I believe this programme will enable me to expand my career opportunities as an Outsystems developer.

How did you keep yourself **focused and concentrate** on the remote training programme?

GABRIEL TAN

For me, positivity is always the guiding principle while I'm doing or learning something new. I look forward to each and every day!

How **successful** was the course outcome compared to your expectations?

GABRIEL TAN

My first impression was that adapting to the programme would be difficult due to a gap in my studies since Poly. Furthermore, I had the feeling that the trainer would be teaching at a fast pace, making it difficult to seek assistance, especially given that the course is held online.

But I adjusted well and performed admirably in the programme. Not to mention how helpful the trainer was in every way.

Are you **confident in your ability** to take on low code development projects after completing this training?

GABRIEL TAN

Do you plan to engage in **further training** in this area?

GABRIEL TAN

Yes, definitely. If there are opportunities, I'd like to be able to gain more knowledge to become an expert in OutSystems.

What **ADVICE** would you give to new trainees who are interested in this programme?

GABRIEL TAN

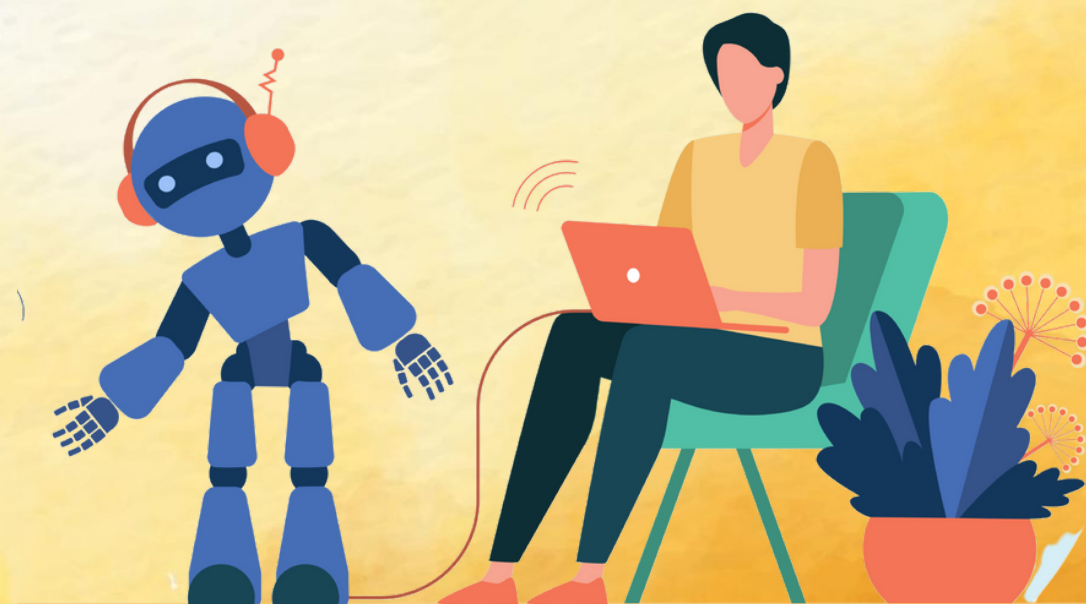

Simply believe in yourself and participate in the programme. You will definitely gain valuable skills, techniques, and work experience that will be extremely beneficial when you enter the tech job market, as it was for me.

What do you think the **future of IT** will look like?

GABRIEL TAN

I believe that IT will most likely take over a large number of jobs in the future, creating a strong demand for low-code software developers.

That is when the skills I have gained through this programme will be most beneficial to me.

Would you **recommend** this training to
a friend or colleague?

GABRIEL TAN

YES
