3 important skills that you have learnt in this programme?

TERCEIRA LIAN

01 Team Work Skills

02 Patience

How did you keep yourself **focused and concentrate** on the remote training programme?

TERCEIRA LIAN ↴

To boost my attention, I usually work in a quiet environment, such as my room, and take short breaks between training sessions to relax and refresh my mind.

How **successful** was the course outcome compared to your expectations?

TERCEIRA LIAN ↴

I initially expected the program to have a large number of participants, but the small class group was definitely more effective, which allowed for greater learning and ample opportunities to address questions.

Adapting to the new drag-and-drop technique was initially challenging, but with enough hands-on practice, I was able to adapt sufficiently to the point where I was competent to complete the task independently at the end of the training.

Are you **confident in your ability** to take on low code development projects after completing this training?

TERCEIRA LIAN

With additional hands-on experience, I am optimistic that I will be able to progress and challenge myself with more difficult tasks.

Do you plan to engage in **further training** in this area?

TERCEIRA LIAN

Yes, I would definitely pursue additional training in this field if demand increases.

What **ADVICE** would you give to new trainees that are interested in this programme?

TERCEIRA LIAN 

Have confidence in yourself and participate in the program. Do not be concerned if you lack coding experience. The trainers will provide you with sufficient understanding of low-code programming during the course of the program.

What do you think the **future of IT** will look like?

TERCEIRA LIAN 

I believe everything will be digitalized in the future, and IT will play a significant role in our daily lives. Additionally, every job now requires knowledge of IT in order to reduce the manual workload and increase work efficiency.

With the knowledge and skills acquired during the programme, I am optimistic that I will be able to support businesses in the future by automating their workflows through application development, hence saving time for end users.

Would you **recommend** this training to
a friend or colleague?

TERCEIRA LIAN

YES
