

What piqued your interest to **i2i CORE RAMP UP TRAINEESHIP PROGRAM**

“

I was drawn to the program since the program included topics in IT, which I had studied in polytechnic and had prior work experience with. As I was familiar with the Outsystems brand, I was delighted to participate in this program in order to learn a new skill that I can apply to future projects in which I will participate.

Additionally, I believed that this program would help me improve my abilities and knowledge in the information technology field...

LIM JING WEI
i2i Core Ramp Up Trainee

In June 2021, our XPLORE team launched our 2nd i2i Internship to Innovation – Core Ramp Up Traineeship Program. i2i is a program designed to add value to internship/ traineeship/ apprenticeship with an aim of nurturing and connecting budding Tech Talents to industry players. Manoeuvring in a fast-paced technology space, we take pride in presenting ample opportunities for our younger Tech Talents to get meaningful exposure/experience in this proven program.

3 important skills that you have learnt in this programme?

LIM JING WEI

01 Analytical Mindset

02 Communication Skills

03 Detail-Oriented Work

How do you think this program will benefit you in your future career progression and opportunities?

LIM JING WEI

This program provided me with the opportunity to gain practical experience and confidence while working with the OutSystems platform. Additionally, I am positive that the professional certification that I earned through this program will provide me with new opportunities in advancing my career.

How did you keep yourself **focused and concentrated** on the remote training programme?

LIM JING WEI

The training was provided succinctly to aid with comprehension and the trainer was supportive and patient throughout, ensuring that the trainees stayed on track at all times. Which allowed me and my fellow trainees several opportunities to express our concerns and clarify any uncertainties we had in order to remain focused on the program.

Additionally, anytime I feel tired or found myself losing focus, I will take brief breaks to refresh my mind.

How **successful** was the course outcome compared to your expectations?

LIM JING WEI

My initial expectation was to enhance my existing knowledge with the new skills I would acquire through the program.

I struggled a bit initially during the program's theory part. Once we moved to the application part of the training, which included practical tasks, that really aided my understanding of the subject. Furthermore, the trainer, my fellow trainees and Xcellink have all contributed to making my program an enjoyable and fruitful experience.

Are you **confident in your ability** to take on low code development projects after completing this training?

LIM JING WEI

Do you plan to engage in **further training** in this area?

LIM JING WEI

Yes, given the IT sector's rapid growth, there are a myriad of opportunities to pursue, particularly in low-code development.

Additionally, I believe that additional training enables me to acquire the necessary knowledge to do my duties effectively.

What **ADVICE** would you give to new trainees who are interested in this programme?

LIM JING WEI

Consider taking a chance in this program if you have an interest in IT. Having a good knowledge of the basics and the ability to concentrate will undoubtedly aid you in successfully completing this program. Especially, with the trainer's and fellow trainees' assistance.

What do you think the **future of IT** will look like?

LIM JING WEI

I believe that as IT advances, the vast majority of jobs will become automated in the future.

Singapore is currently phasing out repetitive and mundane jobs in favour of AI. Therefore, there is a constant need for me to continuously improve my skills in order to prepare for the future.

Would you **recommend** this training to
a friend or colleague?

LIM JING WEI

YES
