SERAPHINA SEE

i2i Core Ramp Up Trainee

In June 2021, our XPLORE team launched our 2nd i2i Internship to Innovation – Core Ramp Up Traineeship Program. i2i is a program designed to add value to internship/ traineeship/ apprenticeship with an aim of nurturing and connecting budding Tech Talents to industry players. Manoeuvring in a fast-paced technology space, we take pride in presenting ample opportunities for our younger Tech Talents to get meaningful exposure/experience in this proven program.

3 important skills that you have learnt in this programme?

SERAPHINA SEE

01 Problem-solving skills

02 Self-confidence

03 Strategic thinking

How do you think this program will benefit you in your future career progression and opportunities?

SERAPHINA SEE

I believe that this program has helped me in acquiring additional skills and has provided me with a new viable career path to pursue.

How did you keep yourself **focused and concentrated** on the remote training programme?

SERAPHINA SEE

Having a quiet space as well as having breaks in between training sessions helped refresh my mind and to remain focused throughout the program.

How **successful** was the course outcome compared to your expectations?

SERAPHINA SEE

The initial training sessions were more intense and challenging than I had anticipated, but with continuous support and guidance from the trainer, it became easier along the way. The trainer was helpful in clearing any doubts on the Outsystems platform.

Are you **confident in your ability** to take on low code development projects after completing this training?

SERAPHINA SEE

Yes. With more hands-on experiences, I believe that it will be easier to adapt.

Do you plan to engage in **further training** in this area?

SERAPHINA SEE

Yes, without a doubt, as I desire to constantly upgrade myself in order to gain new knowledge which will be useful and valuable in my career.

What **ADVICE** would you give to new trainees who are interested in this programme?

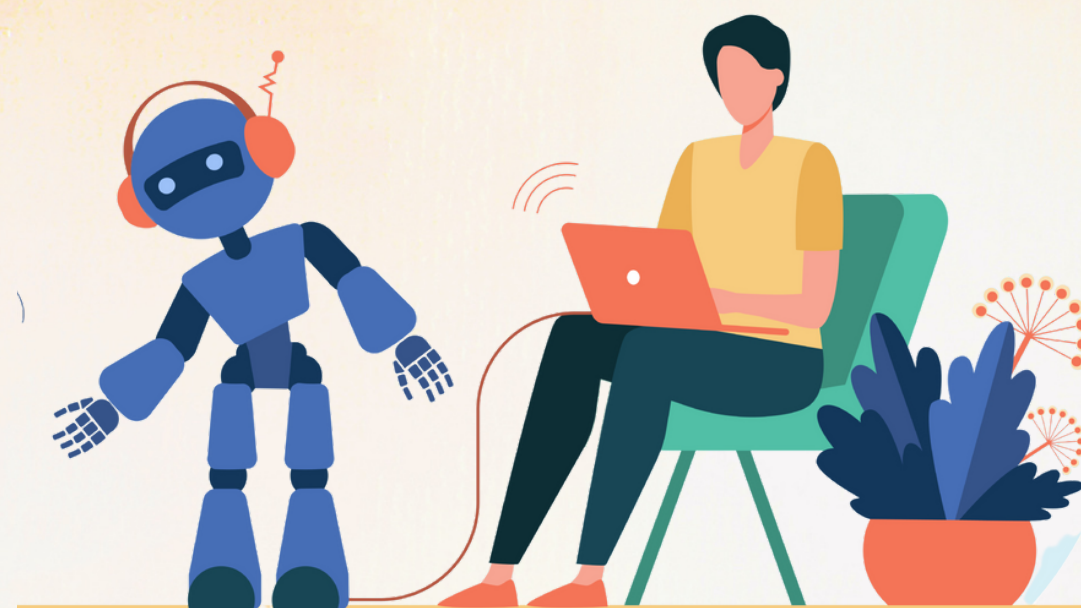

SERAPHINA SEE

Believe in yourself and your ability to learn new skills. The training may initially appear tough to comprehend, but if you have any doubts during the course of training, the trainer will be happy to guide you.

What do you think the **future of IT** will look like?

SERAPHINA SEE

I believe that more businesses will turn towards being digitalized and organizations will look for more IT professionals to assist with the transformation of their businesses.

Would you **recommend** this training to
a friend or colleague?

SERAPHINA SEE

YES
